Disclaimer

Important Note: Emotional Freedom Techniques (EFT) are not intended to diagnose, prescribe, treat, or cure any disease, physical or mental. They are self-help coaching techniques used to balance bioenergetic systems thereby reducing stress, enhancing health, and removing any dysfunction in the body's bioenergetic system. They are not intended as a substitute for regular medical care.

No one is advised to discontinue or to avoid medical or psychological consultations. There are cases where medical or psychotherapeutic consultations are advised. Some statements represent working theory rather than accepted science. EFT practitioners are bioenergetic consultants, not licensed medical doctors, psychologists, psychotherapists, chiropractors, lawyers, nutritionists, or naturopaths. Bioenergetic consulting is not currently regulated by any licensing board in the United States. Any spiritual counseling provided by EFT Practitioners is not part of any recognized religion, nor is it intended as the practice of clinical psychology.

Most issues, such as those involving pain and emotion, respond immediately to bioenergetics correction with Emotional Freedom Techniques. More complex issues involving autoimmune disease process and chronic illness can take longer to resolve.

Individuals with chronic conditions typically feel a significant shift after their first session.

We know that Emotional Freedom Techniques is highly effective. Therefore, we will do an evaluation and suggest a bioenergetics correction for your issue and let you experience the results overnight. If you do not believe, after overnight reflection, that you are dramatically better or that your chronic condition will benefit greatly from this work, we will fully refund your initial fee. This is a one-time guarantee and you must make this determination within 24 hours of your first session. If you choose to continue sessions, no refund will be available.

Many issues, such as trauma, never return after treatment with EFT. Other treatment issues, such as chronic anxiety, chronic depression, chronic pain, are susceptible to having the treatments erased by an energy toxin such as a toxic food, a virus, or bacteria. That is why they are chronic issues. Even these chronic issues can be completely healed using EFT. Typically a person must avoid the toxic substances for a period of time during their healing.
